

Neo4j Introduction

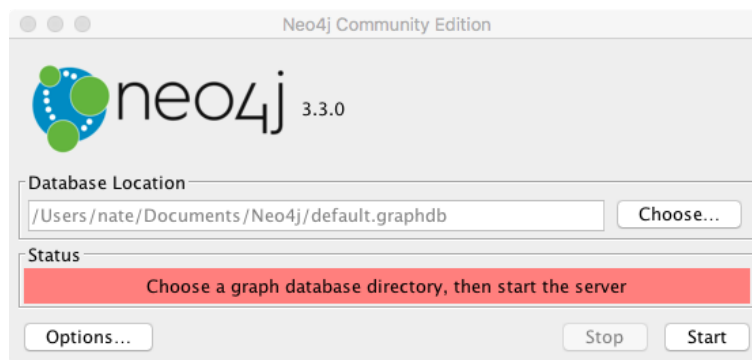

The Getting Started¹ guide is highly recommended!

1 Installing Neo4j

Download and install the “Community Edition” for your platform². After clicking the download, each has a step-by-step walkthrough of the process.

2 Running Neo4j

Once installed, run Neo4j and you should see a window like the following ...

Set the database location as you wish, then click “Start”. Once the server is running, click the link to open your browser. The default login is `neo4j/neo4j` – then change this to something of your choosing.

3 Play

You will follow the Neo4j browser to introduce ...

- Graph concepts: click the “Start Learning” button, or `:play concepts` in the prompt
- Graph creation/querying: click the “Write Code” and then “Create a graph”, or `:play movie-graph` in the prompt
- Convert from RDBMS: click the “Write Code” and then “Convert from RDBMS”, or `:play northwind-graph` in the prompt
