Data to Destination Process Image Text Description

This image displays a process. Two blue circles labeled "Data" feed into turquoise containers labeled "Big Data Source". There is a small gray arrow pointing right to four light blue rectangles labeled "Map". There is another small gray arrow pointing right to a gray octagon labeled "Shuffle (Optimization, deduplication, aggregation, accumulation, etc.)". The last gray arrow points right to four turquoise rectangles labeled "Output". There are two double sided arrows below the Output to show queries lead to two yellow smiling faces which show the data destination.
